Hi there! I'm Ashton

I'm an optimistic and open minded, artistic individual who enjoys working with computers and technology ever since I was 6 years old. I enjoy working with others and I'm able to get along with people or a team easily. Coding is one of my many passions and would love to pursue that further as it stimulates my creative mind and creating a working project/website excites me. Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals.
